Computerized Scanning, Digitizing, Embroidery and Screen Printing

About Embroidery By Design, Inc.

Embroidery By Design, Inc. is owned by Butch Gast who started the business in 1993. With 26 years of sales, quality control and project management experience, he guided Embroidery by Design, Inc. from a one-person business to a leader in the promotional products industry. The company was founded with a dedication to customer service, quality and delivery and today these qualities are the guiding principles throughout the organization.

Customer Service & Fulfillment

Embroidery by Design, Inc. is an exceptional promotional product company. Unlike many of its competitors all embroidery and screen-printing is done on the premises in the 12,000 sf location in Englewood, Colorado.

Embroidery by Design, Inc. is large enough to compete with the sizeable companies of the industry, yet small enough to not lose touch with our clients.

A Tradition of Customer Referrals

Embroidery by Design, Inc. does not pay for traditional advertising. The company's growth is based on referrals and strong customer retention. Many of Embroidery by Design's clients today, are original clients from when the company was first founded in 1993. This is a strong testament to the dedication to quality and customer satisfaction at Embroidery by Design, Inc.
